The Prevent Strategy – Aims to prevent people from becoming terrorists or supporting terrorism. It has three key themes (the 3 I's):

Ideologies – Respond to the ideological challenges we face from those supporting terrorism

Individuals – Provide support and advice to vulnerable individuals, preventing them from being drawn into terrorism

Institutions – Work with educational and other institutions to address the risk of radicalisation and violent extremism

(Extremist groups - left wing, right wing, animal rights, environmental, IRA and splinter groups)

The Counter Terrorism Bill places a statutory duty on Schools to help prevent young people being radicalised – 'Frontline staff should understand Prevent, be able to recognise vulnerabilities to radicalisation and know where to go to seek further help.' Home Office Dec 2014

New Safeguarding procedures coming in early in 2018 including initiatives such as Safeguarding Partners and a revised Working Together to Safeguard Children will impact on this strategy also.

**Prevent Strategy in School**

The strategy in school has taken into account push and pull factors that can foster extremism and strategic teaching approaches used as an effective method to tackle issues.

Push factors include –

- Lack of excitement and frustration
- Lack of sense of achievement
- Lack of purpose/confidence in the future
- Gaps in knowledge or understanding of faith – in children and parents
- Gaps in knowledge and understanding of context regarding immigrants, migrants and asylum seekers as specific communities within the UK
- Humanitarian compassion for communities involved in global conflict
- Sense of injustice
- Actual or perceived humiliating experiences
- Exclusion – lack of belonging to peer or community

Pull Factors include –

- Charismatic , confident and influential individuals who are potentially in positions of power
- Networks/sense of belonging
- Broader community views which enable or do not oppose extremism
- Persuasive clear messages, exploiting knowledge gaps
- Social networking media – with no compliance to fact or legal recourse
- Individuals who are skilful in terms of exploiting emotional empathy in others

Strategic Teaching Approaches –

- Teacher attitudes and behaviour - willingness to admit you don't know, acknowledging controversial issues exist, awareness of the teacher's role, willingness to seek help and guidance if uncertain about an issue
- Specific knowledge – Understanding of other cultures and religions as well as values and beliefs (whilst being careful to avoid 'othering'), knowledge of an alternative values framework
- Teaching practice and pedagogy – Boosting critical thinking, helping to see multiple perspectives, use of multiple methods and resources, embedding or sustaining dialogue following any specialist interventions, enabling students to tackle difficult issues, Linking school work to wider community, drawing evidence from across the

curriculum, developing in children a sense of multiple identities and to help children become aware of and comfortable with multiple personal identity.

- Teaching British values of democracy – The right to vote, the rule of law, individual liberty, mutual respect, tolerance of those of different faiths and beliefs
